Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

The pursuit of a goal can give your life purpose, energy, hope, and excitement, but it can also bring anxiety, insecurity, and overwhelm. Sometimes, simply acknowledging what you want can arouse feelings of longing and despair.

Each message was a powerful acknowledgement that so many of you want to change the world in all kinds of different ways. Keep reading below to get a mega-dose of inspiration!

Feels has become so widespread people use it in everyday speech. The phrase all the feels has also apparently inspired another common construction used to express hyperbolic excitement, *all the X's*. For instance, *Let's go out to eat. We'll have tacos. We have all the tacos!*

Society has enjoyed a rich harvest of poetry, painting, scientific discovery and all manner of human achievement when talented people have been under severe emotional pressure. A challenge to adapt can promote welfare and productivity. As Hans Vaihinger put it, "Man treats his enemies (adversities) more to his friends." Other freedom would be the price of total immunity from fears, anxieties, and frustrations.

The current research explored both pre-purchase and post-purchase factors of consumer behaviour. Specifically, the purpose of this paper is to investigate the relationships that may exist among consumers' perceptions of persuasibility, scarcity, low price, attitudes, impulse buying, post-purchase emotions, and product returns within the context of the test fashion environments.

Imagination begins with ideas and ideas begin with knowledge and knowledge gain with experience and we can feel experience if and only if we have observation and beliefs. So to imagine anything we have to have proper observation and analytic skills. If we have these two that surely we come up with some crazy yet sensible ideas in our head. Once ideas start hitting, the next thing comes is imagination and this imagination only comes if we involved and evolved within it.

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
